

## **Summary of Visit Publication Policies of other Health Regulators**

---

### **General Dental Council (GDC)**

The GDC release the full visit report onto their website and this is discussed in an open session of Council.

### **General Medical Council (GMC)**

The GMC release the full version of the visit report onto their website along with the institute's response to the report. The report is discussed in an open session of their Council Meeting; however members of the public are unable to attend this session.

### **Health Professions Council (HPC)**

The HPC release the full report onto their website and it is discussed in a public session; however they have certain criteria where some items would come under a private session if the content is of a sensitive nature. The response of the institute is also released onto the website with the visit report.

### **Royal Pharmaceutical Society of Great Britain (RPSGB)**

The RPSGB have two versions of the visit report. The summary report is released onto their website. A copy of the full report is available to Council members with discussion regarding sensitive items contained only in the full report being discussed in a closed session of their Council meetings. The institute's response is placed onto the website with the summary visit report.

### **Nursing and Midwifery Council**

The NMC sub-contract Visits to a third party organisation due to the large numbers of training institutions they accredit. The NMC publishes dates of the last and next quality assurance visit on their website along with a statistical summary report of the information gained from their annual monitoring process and full details of each the annual monitoring submission from each individual institution.
