1. Introduction

We are the regulator for the optical professions in the UK. Our purpose is to protect the public by promoting high standards of education, performance and conduct amongst opticians. We currently register around 30,000 optometrists, dispensing opticians, student opticians and optical businesses.

We have four core functions:

- Setting standards for optical education and training, performance and conduct.
- Approving qualifications leading to registration.
- Maintaining a register of individuals who are qualified and fit to practise, train or carry on business as optometrists and dispensing opticians.
- Investigating and acting where registrants' fitness to practise, train or carry on business is impaired.

It is absolutely essential for both public protection and confidence in the professions that the General Optical Council (GOC) provides a high quality, robust and fair service across all its core functions.

The Fitness to Practise Committee hears cases where a registrant's fitness to practise is in question, consider allegations, hear oral evidence, and take decisions including sanctions.

The Registration Appeals Committee considers appeals against decisions relating to applications for registration.

This information pack provides details of the role, information on the GOC, details of how to apply and information regarding the appointments process as well as further details about the timetable.

If you welcome the challenge of helping to take a leading role in supporting optical regulation at this time, we would be delighted to hear from you.

5. How to apply

The **application form** and the **EDI monitoring form** can be downloaded from our website.

We highly recommend you read this pack, paying particular attention to the competences required, before starting to complete your application form, so you can take this into account when writing your competency statements.

We recommend you allow ample time to complete and review the application form. Please do not assume the selection panel will rate your application based on your CV. Make sure you include plenty of evidence in your application form.

Please send your completed application, with a CV, (no more than 3 A4 sides) and a completed EDI monitoring form, to enapier@optical.org by **17:00 on Friday 23 June 2023**

Your CV should outline your employment history (max 10 years), any relevant voluntary work, public service or other experience, together with any relevant professional, academic or vocational qualifications. Your CV will be used to assist in the assessment of your expertise, but it will not be used as a substitute for fully completing the application form. **Please note that CVs alone will not be accepted.**

The EDI monitoring form will be separated from your application form prior to shortlisting. We are committed to ensuring equality and diversity and completion of this form is a mandatory requirement of the application. We use this form to monitor diversity at all stages of the appointments process – see section seven of this pack.

To ensure fairness to all candidates, any additional information you provide will be removed from your application (for example, cover letters, appraisals, examples of work, etc.). The Panel will assess your suitability for the role (against the stated competences) via the application form only (with CV to assist).

How to complete competency-based answers in the application form

Providing competency statements is important because the selection panel will use them to assess your suitability for the role. It is not sufficient to say that you have the relevant experience – you should show evidence of making a success of that experience by describing how you acted in particular scenarios, and what effect those actions had.

For each competency, think about and consider providing examples which:

- demonstrate how you meet the competency.
- explain in some detail your individual involvement and role in the matter.
- had a positive impact (less successful examples are just as acceptable but you may wish to reflect in your answer the lessons learned).
- clearly identify the impact of your actions; and
- allow you to highlight other key skills or knowledge mentioned in the candidate pack (if possible).

If you do not have an example to use, we recommend that you seek advice from those who have observed you in a professional, academic, voluntary, or other vocational capacity as there could be examples which you have forgotten about. We recommend you do not leave an

answer box blank. By leaving it blank you indicate that you do not (or cannot) meet the competency.

If you have any questions, please email them to Euan Napier at enapier@optical.org and we will aim to respond to you within 48 hours.

Should you wish to contact us by mail or by telephone, our contact details are:

6. Once we receive your application

We will process your application as quickly as possible and will keep you informed at key stages. Please read the information below carefully, which outlines important information and our process once we receive your application:

- We will acknowledge receipt of your application (by email if provided) within two working days. If we are unable to open or print your application or your application is incomplete, you will be contacted immediately. If we then do not receive your application by the specified time, it will be assumed you are no longer interested in the role.

This will be confirmed to you via email. Please note that feedback will generally only be available to candidates who attend interview but are not appointed.

- If, in the view of the selection panel, you can demonstrate that your skills and experience most closely match the competences required for this position, you will be offered appointment.
- All candidates who have been interviewed will be notified of the outcome once the final decision has been made, which we expect to be during the week following interviews.
- References for candidates who are offered an appointment will be taken following interview. An appointment will not be confirmed until the GOC has received two satisfactory references.
