

DRAFT GOC BUSINESS REGISTRANT SURVEY

INTRODUCTORY TEXT

The General Optical Council has commissioned XX to conduct a survey of optical businesses registered with it. The purpose of this survey is to help the GOC understand more about the businesses it regulates and current issues facing optical businesses. The survey findings will also help the GOC to prepare proposals for legislative reform linked to regulation of optical businesses.

The survey should take approximately XX-XX minutes to complete depending on your answers.

Your responses will be treated in the strictest confidence, and you won't be identified in any information we pass on to the GOC. XX abides by the Market Research Society Code of Conduct. The aggregated results from this study will be included in a report that will be published by the GOC.
